

Mission 8604 10 Jan 1959 (PAR 422-58)

See <http://arcg.is/1ubX4f> for an interactive web map version.

Flight path notes. The past was reconstructed entirely from track coordinates in a declassified document (no. 5 below).

Mode notes. No film from the main camera has been viewed; no information on modes from the available declassified documents.

Main Camera notes. Since the mission covered ca. 4,218 km between Alexandria, Egypt and Latakya, Syria but only returned 12 rolls of film, it is highly likely that the main camera was turned off one or more times during the flight.

Tracking camera notes.
